## Preparatory School

October 26, 2007

To Whom It May Concern:

I am pleased to recommend Margaret Kay as a professional who is quite skilled in her diagnostic assessments of children and adolescents. Our Admissions Team at Hill Top Preparatory School has had the pleasure of working with Margaret for many years, and her evaluations are always very thorough and well-developed. Her writing is very detailed and descriptive, and she goes beyond the basic factual reporting of data to explain what the testing says about a particular student's strengths and areas of need.

Hill Top Preparatory School works with students in grades 6-12 with diagnosed learning disabilities. We do not accept students who are struggling with social/emotional needs, conduct or behavior disorders, or who need an intensive academic remedial program. A thorough and accurate report of a student applicant is crucial to helping us determine the appropriateness of a particular candidate. Margaret's evaluations help make it very clear to our Admissions Team whether or not a student fits with the mission of Hill Top. She also lists an abundance of suggested strategies and programs as part of her report. We find these extremely helpful in implementing initial educational plans for newly incoming students. Of special note is that Margaret's suggestions for each child are insightful, on target, and clearly reflect the diagnostic data gleaned from her evaluation.

It is without hesitation that I support Margaret Kay as a professional who is truly an expert in her field. If there is any further information you would like, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Tara Reeves".

Tara Higgins Reeves

Director of Admissions and Development
